<b>Change Document Jails 2018</b>	

Corizon Health is releasing the newly updated 2018 General Health Services Policy and Procedure Manual for our organization. The revisions to this manual were made based on the newly released NCCHC Standards for Health Services in Jails and the ACA Standards Supplement from 2016. The new Corizon manual reflects all changes required by these two guidance sources. This Change Document will provide guidance to changes in titles, numbering schemes, the combining of past standards content, the addition of new standards, and the deletion of some previous standards.

NCCHC accredited facilities have approximately six months to transition to the 2018 standards. Surveys in August, September, or October 2018 will have the option of being surveyed under the 2014 or 2018 standards. Effective November 1, 2018 all NCCHC surveys will be conducted using the 2018 standards.

We have high hopes that you will find the new layout of the policies and the addition of 'Facility Guidance' helpful as you make the policies site specific. The following 2 tables will outline the changes from the 2014 NCCHC Standards and our 2015 issue to now. Table 1 outlines how the 2014 standards were reorganized by section and number. Please note that in some cases the standard names were changed. Table 2 lists the 2018 names and numbers.
